

Mounting instructions

Mounting banners in Smartframes

1. Insert the first corner into the frame.
2. Press the rubber band into the groove.
3. Do the same in the other corners.
4. Now slide the banner down the sides.
5. The finished picture should be completely smooth.
6. When replacing, the old print is easily removed by pulling the small transparent loop.

The frame can be wall mounted or free standing.
